

## Our Products

### White Masterbatches

Code	Product Name	Description	Carrier	Applications
PL-019	Regular White	50%	LLDPE/PP	Blow & Cast Films, Injection & Blow Moulding, Lamination, HDPE Pipes
PL-021	Super White	35%	LLDPE/PP	Blow & Cast Films, Injection & Blow Moulding, Lamination, HDPE Pipes
PL-022	Normal White	20%	LLDPE/PP	Blow & Cast Films, Injection & Blow Moulding, Lamination, HDPE Pipes
PL-023	Premium White	60%	LLDPE/PP	Blow & Cast Films, Injection & Blow Moulding, Lamination, HDPE Pipes
PL-024	Snow White	65%	LLDPE/PP	Blow & Cast Films, Injection & Blow Moulding, Lamination, HDPE Pipes
PL-028	Bright White	70%	LLDPE/PP	Blow & Cast Films, Injection & Blow Moulding, Lamination, HDPE Pipes
PP-014	S - White	65%	LLDPE/PP	Blow & Cast Films, Injection & Blow Moulding, Lamination, HDPE Pipes
PP-015	P - White	60%	LLDPE/PP	Blow & Cast Films, Injection & Blow Moulding, Lamination, HDPE Pipes
PP-001	Jhanson White	45%	LLDPE/PP	Blow & Cast Films, Injection & Blow Moulding, Lamination, HDPE Pipes
PL-001	N - White	60%	LLDPE/PP	Blow & Cast Films, Injection & Blow Moulding, Lamination, HDPE Pipes
PG-001	H - White	50%	GPPS/ISAN	Injection Moulding
PG-002	T5 - White	60%	GPPS/ISAN	Injection Moulding
PC-001	PC- White	55%	PC	Injection Moulding

### Additive Masterbatches

Code	Product Name	Description	Carrier	Applications
PL-029	Optical Brightener	1% Brightening Agent	LLDPE/PP	Film Applications
PL-030	Optical Brightener 1	2% Brightening Agent	LLDPE/PP	Film Applications

### Filler Masterbatches

Code	Product Name	Description	Carrier	Applications
R-001	Filler	40-90% CaCO3	PP	Non Woven Fabric
R-002	Filler	40-90% CaCO3	LLDPE	Blow & Cast Films, Injection & Blow Moulding, Rotomoulding Tanks, Lamination, Non-Woven Fabric

### Engineering Plastic Compounds

PPC Group has wide range of Filled, Un-Filled and FR, Nylon-6, PC, PBT and PP compound for automotive parts, modular switches, electrical and electronic parts, battery housing and consumer durables. These compounds are meeting stringent international quality standards.

Products	Description	Application
PP Compounds	Talc Filled, Glass Filled, Flame Retardent	Car bumpers, Dash boards, Door Trims, Filter assembly, Battery Housing and Washing machine parts.
Nylon Compounds	Un-Filled, Glass Filled, Mineral Filled, Glass Filled FR, Impact modified	MCB's, electrical and electronic parts, gears and assembly parts.
PBT Compounds	Un-Filled, Glass Filled, Mineral Filled, Glass Filled FR, Impact modified Impact modified FR	MCB's, Modular electrical and electronic parts, Connectors, filter housing and door handles.
PC Compounds	Colour, White, Black, Glass Filled	Electrical and electronic parts, automotive lighting assembly.

### Colour Masterbatches

We have wide range of colour masterbatches, produced with maximum loading of high performance pigments, to be used in different plastic applications as follows.

- Blow & Injection Moulding
- Powder Coating Plants
- Woven Sacks
- Non Woven Fabrics
- Tape Plants
- Film Plant
- Carry Bags
- Lamination
- Tarpaulin
- Rotomoulding & Blow Tanks

### Special Effect Masterbatches

We also have a range of special effect masterbatches as:

- **Fluorescent Masterbatches**  
Applications: Toys, Shopping bags, Safety signs, Various stationary products, Cosmetics packaging etc.
- **Pearlescent Masterbatches**  
Applications: Toys, Cosmetics packaging, Moulded Products etc.
- **Texture Masterbatches**  
Applications: Application : Furniture, Household Products etc.
- **Metallic Masterbatches**  
Applications: Films & Mouldings

We are offering our special range of Masterbatches for:

### Woven Sacks & Non-Woven Fabric
